

AMENACORE

"Caring People Creating Global Solutions"

Today and Tomorrow

**Providing Essential Products, Services, and Support
Solutions for People of All Ages.**

*"What we accomplish in life is
not measured by one's wealth or stature,
but by the ability to affect the lives we touch,
and the legacy we leave behind."*

AMENA means Honest, Faithful, and Utterly Pure.
CORE is defined as the Center of All Things.

Today.

The AmenaCore companies are dedicated to the design, developed, and deployment of global solutions providing essential products, services, and ultra-secure data solutions, for people of all ages.

As we move towards the future, AmenaCore's vision is to provide the people an ultra-secure place online where they can have access to everything needed to have the Highest Quality of Life, an AmenaLife.

The Vision for AmenaCore is to build a network of companies that combined, provide all the essential needed by the people.

The following are the current and future operating companies within AmenaCore.

amenapure.com

There are two elements we can't live without, clean air & clean water. Today, 2.2 Billion people lack access to the One Gallon of Safe Water needed to survive daily.

AmenaPure is a unique hybrid company that is a combination of Science, Technology, Design, Engineering, Product Development and Custom Manufacturing. We are unlike any other membrane company in the world. Our unprecedented fabricated-to-order membranes are made from certified and traceable raw materials. We can provide a unique and superior customized product line to our customers, spanning a wide variety of applications, such as vapor filtration, bio-enzymes filtration, yeast production, bio-organic pharmaceuticals, veterinary services, and more.

We have designed, developed, tested, and sold our custom formulated membranes across multiple industries. We have produced a wide variety of custom membranes based on very specific formulations and requirements of the most sophisticated, knowledgeable, and demanding, clients in the world. Global Market size is \$1.5 trillion annually.

Contracts and Service Agreements and Opportunity

In the first half of 2021 we submitted our custom formulated membranes to Applied Membrane Technologies (AMT) to be tested alongside the other globally recognized membrane manufactures to compete to be the sole-source provider of specialized membranes for multiple highly specialized applications. The result, AmenaPure surpassed all expectations by demonstrating that our membrane was 281% more efficient than all the other suppliers, including 3M Corporation.

On completion of our facility, we will be entering into three separate contracts with AMT.

1. A supply agreement for specialized custom membranes
2. A global collaborative marketing agreement whereas AMT will offer our specialized custom formulated membranes to their customers and other organizations globally
3. A supply agreement for Lab Services to the purpose of doing all their product validations.

We have begun conversations to enter similar arrangements with CHF a world renown manufacture of medical devices used in human blood filtration.

In the NEWS:

November 6, 2022 – AmenaPure and Genesis Systems signed a consulting agreement.

We are traveling to Florida to meet with Genesis Systems LLC (The Water Cube) on November 15-16 with the intent to collaborate on the development and delivery of a complete solution to Genesis. This near future opportunity exceeds 25 million dollars in revenue for AmenaPure.

affectchange.com

Affect Change Media, is a Global Media and Content Provider specifically focused on highlighting the “Wonder Filled” works of people and organizations around the world “Affecting Change” and enhancing the quality of people’s lives every single day. Affect Change is a part of ChangeThruChange.

In the NEWS:

Each social media influencer picks a loyal follower with a big heart, big drive, or extraordinary talent to transform their lives and make their dreams come true.

Away2Pay

aw2p.com

AWay2Pay (AW2P) was formed by the leading payment processing industry experts who are dedicated to your success. We have over 100 years of combined expertise in the credit and debit card processing business. You bring the need, and together we will define and implement the most efficient, reliable, affordable, and secure payment and processing solutions tailored to meet your individual business goals and objectives, both domestically and internationally.

AmenaCore has built two passive income streams to support the efforts of the company. The first is Merchant Services, providing merchants with the efficient state-of-the-art processing solutions, e-commerce solutions and point of sale systems. Additionally, AmenaCore has developed 1Click2Give for non-profit organizations. We process donations and provide marketing support, and reporting at no cost to the non-profit, allowing charities to receive 100% of all donations.

Current Opportunities

Today companies are spending millions “selling merchant processing” which costs their client companies thousands of dollars every month. At AW2P, we offer flat rate processing at \$29/mo. and include the equipment at no cost, completely breaking all the rules.

In the NEWS:

October 15, 2022 – AW2P submitted a proposal to The Salvation Army to process \$120 million in annual credit card sales. (Possible revenue of approx. \$12M+)

October 26, 2022 – AW2P submitted a proposal to the financial services department of Goodwill industries. Goodwill does \$5.4 billion in annual sales with approximately \$2 billion in annual credit card sales. (Possible revenue of approx. \$20M+)

November 1, 2022 – AmenaCore signed an exclusive agreement with OuterSales for merchant services. This agreement provides AmenaCore with the largest sales organization in the world. AmenaCore will have access to over 300,000 salespeople in the United States.

OuterSales specializes in developing Nationwide and International sales and marketing channels for organizations of all sizes who want to increase their market share and revenue, without increasing overhead on expensive in-house sales staffing, payroll, advertising, training, travel, and other related expenses. OuterSales has more than 2.5 million profiles and line cards on sales reps and distributors broken down into hundreds of product and service groups. OuterSales’ screening process is based first on client requirements, then on the representatives’ and/or distributors’ experience, product and industry knowledge, sales channels, customer base, territories and more.

November 12, 2022 – 1Click2Give presents to Charity Navigator, a rating service for over 200,000 charities. Charity Navigator helps millions of people act and support the causes they care about by connecting them to the best charities that align with their passions and values. 1Click2Give can help each and every charity increase their outreach and donations.

changethruchange.org

ChangeThruChange is a 501(c)(3) non-profit organization that seamlessly allows people to give to projects that will truly change a person's life. 100% of all donations go directly to our causes. CTC's Safe Water 4 ALL is committed to providing people access to safe water.

Today, based on information provided by the U.S. Treasury Department, there is over Ten-Billion Dollars in uncirculated change just lying around on dressers, in drawers and jars across America, doing nothing. ChangeThruChange's goal is to help change that spare change into global Change.

Change can also be collected at stores, organizations, social groups, businesses, and anywhere where people purchase goods and services.

In the NEWS:

November 2, 2022 – Kelseyville California, Lake County ChangeThruChange presented "Safe Water 4 ALL" to all the downtown merchants and everyone said "YES" to placing CTC coin collection jars on their countertops.

November 22, 2022 – ChangeThruChange launches the Safe Water 4 ALL "Donation" button to raise money for Safe Water 4 ALL. Let's make a difference!

Annually Credit Card Fraud is \$28.65 Billion, Identity Theft, \$712.4 Billion, Card Not Present Fraud, \$4.7 Billion in the USA, The total monetary Loss: \$1,901,064,357 per year.

AMENABank

The People's Bank

The best example we have of a "Great Bank" was the one in "It's a Wonderful Life." That was the People's Bank. Its Time. The people need a new bank, and we have all the parts, the knowledge, the experience, and the passion to make it work for the people.

AmenaBLOCK

Recycling the world's unusable "garbage plastic" into Homes.

"Garbage Plastic" is the perfect material to make ecological bricks. At AmenaCore we have the solution and the technology to take the unusable and recycle sustainable housing for the people.

It takes an average of 500 years for plastic to disintegrate completely and in view of this reality, a new trend in construction has been developed that is based on reusing discarded plastic to create sustainable and economical building materials. Using recyclable materials for the construction of sustainable housing is a helpful way to combat environmental problems.
